Skills

- C#, C++, Python, Java, Dart, C, Javascript, Rust, PHP, Haskell, SQL
- Unity, Unreal Engine
- L^AT_EX, HTML, CSS, OpenGL
- Flutter, Git, CI/CD, Docker, Android, iOS

ABOUT ME

Practical programmer with a great passion for games. Trying to learn and improve everyday at everything I do. Curious and interested. Knowing a bit of everything is always what guides me. I'm not afraid to start working on a new tool, because I see this as an opportunity to grow.

I have been a teacher assistant in algorithms and programming courses at my bachelor's university and member of the videogames development group.

WORK EXPERIENCE

Let's Talk Media

Full-time Remote, Software Developer

OCT 2025 – APR 2026

Unannounced project, developed with Flutter for mobile devices.

- Front end implementation of app designs. <
- Development and maintenance of backend systems. ☁️

Nabos Studios

Full-time Remote, Gameplay Programmer/Cinematics

SEP 2024 – JUL 2025

Jason Maxx. Narrative/Exploration game, set in a dark and absurd city. A man died under strange circumstances and detective Jason Maxx it's on the case. Developed with Unity.

- General systems development. 🎮
- Movement and interaction systems development. 🎮
- UI systems. 🎮
- Editor tools development. 🎮
- Cinematics implementation. 🎮

Learn Safari

Full-time Remote, Full Stack Developer

FEB 2019 – DEC 2024

Mobile apps for kids to learn a new language, consist of a series of lessons, divided by levels, with a story and educational minigames. The apps were: *Spanish Safari* and *Safari Inglés*. Platforms: iOS, Android and Web. Developed with Unity.

- Game design of the minigames in the lessons. 🎮
- Development and maintenance of backend systems. 🎮
- Editor tools development for general purpose. 🎮
- Design and development of new app features. 🎮
- Server/Database maintenance. MySQL
- Design and development of an automation pipeline. 🤖

Simón Bolívar University

Part-time, Instructor

JAN 2018 – APR 2018

Instructor of the course *Laboratory of Algorithms and Structures I*. Teaching new enrolled students of *Computer Engineering* the basic theory of programming and an introduction to their first programming language. The language chosen was *Python*.

EDUCATION

Computer Engineering, Simón Bolívar University (Bachelor's Degree)

CARACAS, VENEZUELA JUL 2023

Degree: Computer Science

Grade: 4.0/5.0

Elective Courses: Programming Languages, Artificial Intelligence, Algorithms Design, Computer Graphics

Internship subject: Automation tools

Project Avatar

PRIVATE 2022 AND ONGOING UNITY, C#

Top down Action RPG made in *Unity*.
This project started as a personal challenge to create deep systems and create a game with a bigger scope.
Still work in progress.

Hades

PRIVATE 2024 AND ONGOING RUST, GAME ENGINES, VULKAN, OPENGL

Rust based Game Engine (for now rendering app). Project started as a way to elevate my knowledge about game development and also took the opportunity to learn a new programming language such as *Rust*.
Still work in progress
Dependencies: Winit, Glow, ImGui, Vulkan/OpenGL.

Reconstru-Bot

CARACAS GAME JAM 2020 UNITY, C#

Game made for the Caracas Game Jam 2020. An art deco adventure of a robot that wants to repair the world and follow his dreams.

Prince of Graecia

CARACAS GAME JAM 2021 UNITY, C#

Game made for the Caracas Game Jam 2021. The God Apollo has taken away Orion's powers, darkening the stars of his constellation. Now Orion has to defeat the servants of Apollo to return the light to his stars and regain his powers.

OTHER PROJECTS

Tac To Mips

PUBLIC 2021 C++, MIPS

Translator from Three Address Code to MIPS Architecture (specifically to MARS).

Eumacclang

PUBLIC 2021 C++, FLEX, BISON

General-purposed programming language developed in the courses CI4721 - Programming Languages II and CI4722 - Programming Languages III in the terms April-July 2021 and September-December 2021.

Eulang

PUBLIC 2020 C++, FLEX, BISON

General-purposed programming language developed in the courses CI4721 - Programming Languages II.

ROS Project

PRIVATE 2021 PYTHON, DOCKER

Mini project made with ROS and Gazebo to make functionalities for a Pepper bot.

Backoffice

PRIVATE 2019 PYTHON, HTML, CSS

Web application for the management of hours and tasks worked by human talent within a company.

Languages

- Spanish (Mother tongue)
- English (Fluent)
- Japanese (Basic)

Qualifications

- | | |
|-----------|--|
| 2019-2020 | President of DELU (Video Games Development Club at Simón Bolívar University) |
| 2020 | Organizer Caracas Game Jam |
| 2022 | Assistant Organizer Caracas Game Jam |
| 2018 | Voice dubbing and Neutral accent Course |

Hobbies

- Videogames
- Movies
- Music
- Tabletop Games
- Sports
